### SUMMARY

---

I'm self-taught front-end web developer, with back-end developing knowledge. Discovered great passion for coding during my degree studies and didn't stop ever since.

A super-fast, autodidact, curious Learner with tons of motivation! Enjoy being part of a team but also work very well on my own.

### EXPERIENCE

---

2012-today	Part time job in "Math Ed. Ltd" in various roles: building presentations, typing tests, building interactional games, updating data in the company's website and server.
2018-2021	Worked as part of the establishment team of "Hamanniya" Caffe.
2017-2018	Worked as Office Manager at eCommerce agency "Stunis".
2010-2012	<b>Army service</b> – enlisted as observer, became commander and then operation room commander in combat intelligence force.

### EDUCATION

---

2019-2021	<b>B.A in Instructional Technologies from HIT. Grades average of 94.</b> Courses I took: Web development (JS, HTML5, CSS), Programming (C#, .NET, jQuery), Advanced Programming (React.JS and python), Data Bases (SQL, Access), Mobile Interface Design (XD), UX / UI, Interactive Programming and Design Programs (Adobe).
